

LADY ONYX

COLOUR

Beige

MACROSCOPIC DESCRIPTION

A precious variety of beige onyx mainly due to its aesthetic qualities, Lady Onyx stands out thanks to its beige background crossed by pinkish and greenish shades and veining that create unique aesthetic motives, as only a natural stone can. Lady Onyx is a material very much used in exterior design thanks to its resistance to abrasion and weather conditions, but it is also used for interior applications, jewelry and furniture with a classic style.

The finishings that best express the beauty of Lady Onyx are polishing, sanding and honing. This natural stone is extracted from Indian quarries, a material capable of offering elegance and distinction to every interior or exterior design project.
