

PERLATO SICILIA

COLOUR

Beige

MACROSCOPIC DESCRIPTION

A beautiful and elegant natural stone, Perlato Sicilia is characterized by a warm light beige color and small brown spots, proof of the presence of micro-fossils while the light veining that cross the background are due to the high concentration of iron oxide.

Thanks to its aesthetic and quality values, Perlato Sicilia marble can be used in many types of different applications, for interior design and exterior elements as: floorings, facings, decorative and daily objects, elegant staircases, windowsills, columns, pools and fireplaces. Perlato Sicilia marble is present in San Peter's Basilica in Vatican City and Milan Central Station, proof of this stone's versatility and preciousness.
