

PERLATO SVEVO

COLOUR

Ivory

MACROSCOPIC DESCRIPTION

Perlato Svevo marble is a beautiful and precious Italian stone, extracted from quarries found in Puglia, most precisely in Bari province. Perlato Svevo is characterized by a light ivory background with splendid pearl accents and slightly darker shades and very characteristic spots of color that in facet represent sections of fossils. The quality of this marble is decided based on the pureness of its background that doesn't have to have dark spots.

Perlato Svevo marble is suitable for classical style projects, mostly dedicated to interior design but it can be used together with other monochromatic marbles for a modern and contemporary use. The finishes that most enhance the beauty of this marble are polishing, brushing and sanding.
