

CALACATA CALDIA

Colour: White

Macroscopic description: The **Calacata Caldia marble** is a variety of Calacatta marble, characterized by a luminous white background crossed by bold grey and golden veins. The veins of **Calacata Caldia marble** add depth and give the stone a unique personality, creating a truly extraordinary visual effect. The smooth and polished texture of this Calacatta variety allows for various processing and finishes, depending on the project's requirements. Also known as **Calacata Rocchetta**, this natural stone is ideal for interiors, where it can offer elegance, style, and luminosity.

A prestigious and precious marble, **Calacata Caldia** is often used in luxurious settings to embellish kitchens, bathrooms, and grand living rooms. The presence of **Calacata Caldia marble** adds a touch of sophistication to any environment, making it the ideal choice for those seeking a high-quality and aesthetically pleasing material with unique characteristics of strength and durability.
