

ROSA TEA

COLOUR

Pink

MACROSCOPIC DESCRIPTION

Rosa Tea marble is a natural stone extracted from Turkish quarries, characterized by a rather uniform pink background that may also present a salmon pink color, based on the block and quarry.

Particularly suitable for decorative elements for interior design, Rosa Tea marble may be used in many different types of projects, especially the ones with a classic print. This beautiful stone may be used with caution in exterior projects where climate is rigid and temperatures are low. Possible realizations with Rosa Tea marble are floorings, also in combination with other marbles, staircases, decorative objects and furniture, jewelry, elegant kitchen tops, interior marble facings and bathrooms elements.
