

CALACATA MONET

Colour: White

Macroscopic description: **Calacata Monet** marble is extracted from quarries in the Apuan Alps, in Tuscany. Its ivory-white background is traversed by veins of gold, purple, and blue. The distinctive veins make **Calacata Monet** highly recognizable and appreciated by those who love stones with bold designs. The extraordinary beauty of **Calacata Monet marble** is particularly highlighted in open-book applications in large spaces. Calacata Monet is used and appreciated especially as bathroom cladding, vanity tops, and as flooring in interior spaces.
