

BIANCO LASA CLASSICO

Colour: White

Macroscopic description: Bianco Lasa marble is a precious natural stone characterised by a homogeneous, bright and uniform white background. Originating from the Lasa quarries in Val Venosta, in South Tyrol, **Lasa white marble**, also known as Lasa white, has a naturally shiny surface, a feature that makes it ideal for use in interiors, architecture and contemporary design, and also for the realisation of sculptures.

Although it is a marble with a generally unblemished background, **Bianco Lasa marble** can have light grey or black veins that cross the surface and personalise it. The hardness of this natural stone varies between 3 and 4 on the Mohs scale, therefore it is a very hard marble, suitable for high-traffic environments and outdoors.
